Subject: Microsoft Settlement

Mr. Attorney General:

I believe that it is a vital interest for our country that when the Justice Department settles a case with a litigant, in Antitrust or any other part of the department, that it ensures that it has settled the case. It is unconscionable that the economic security of our country be endangered by the political desires of any one of the 50 state Attorneys General. Please do your best to ensure that the judiciary accepts the terms of your department's settlement of the Microsoft case, and see that it is applied nationwide.

Thank you for all of your good work in this dangerous time for our country.

Cordially,

William R. Kanninen
